

## Our Story

After over sixteen years of working in the painting and renovations industry in high-end residential and commercial spaces throughout the five boroughs, Saladin Grant has decided to start his own painting company with mission for excellence and innovation in painting.

## Our Mission

The very nature of painting is to provide added value to a space through carefully selected color palettes. Our mission at Textures Painting is to work with customers to provide a space that is aesthetically pleasing while providing the highest-quality workmanship possible.

We succeed at this because of the integrity of our painters and staff, our commitment to a solid work ethic, and our passion for staying current with the newest innovations of our industry, with consideration for the environment.

Our staff and crew bring years of experience to bear in both residential and commercial spaces. Our employees have been chosen based on their ability and level of craftsmanship, as well as their personal qualities and values.

Our pride and personal involvement in the work we perform result in superior quality and service. This attitude is also directly reflected in our employees' level of responsibility, professionalism, and competency.

Our goal is to have customers who believe we are the best company to meet their needs, employees who can't think of a better place to work, suppliers excited enough to call us their favorite account and communities that consider us a fine example of what business should be.
